About Siirt University

Siirt University, is a public university located in Siirt, a city in southeastern Türkiye. Established in 2006, it is a relatively young institution, but it has rapidly grown in terms of academic offerings and student enrollment. The main campus is situated in Siirt city, with additional facilities spread across the province. Siirt University is committed to providing quality education and contributing to the development of the region. Its growing academic programs and community engagement make it a key institution in southeastern Türkiye.

SIİRT *Bilimin Işığında*
ÜNİVERSİTESİ

Rector's Message

Dear Students, Academics, Staff, and Esteemed Partners,
It is my pleasure to welcome you to our university—a vibrant community dedicated to academic excellence, innovation, and social impact.

Our students are at the heart of everything we do. We are committed to providing a supportive, inclusive, and intellectually stimulating environment where you can grow, explore your passions, and prepare for the challenges of a rapidly changing world.

To our distinguished faculty members, your dedication to teaching, research, and mentorship continues to shape the future. Your contributions enrich our academic culture and drive the pursuit of knowledge across disciplines.

To our administrative and support staff, thank you for being the backbone of our institution. Your commitment and professionalism ensure the smooth operation of our campus and the wellbeing of our entire community.

And to our valued partners—whether in industry, government, or civil society—we deeply appreciate your collaboration. Together, we create opportunities for innovation, impact, and global engagement.

As a university, we remain steadfast in our mission: to educate, inspire, and lead. I invite each of you to be part of this journey—shaping not only the future of our university, but also of the society we serve.

Warm regards

**Mission:**

The mission of our university is to educate high qualified individuals who use their knowledge, experience, and skills for the benefit of humanity in the light of universal values, produce, and think positively, or his output on the areas of education and service for the benefit of society, contribute to development on local and national arenas, use the knowledge for social, cultural, and technological development, and are equipped with knowledge.

Vision:

In the process of globalisation, we aim to be a leader University that contributes to economic and political developments in the region through its inter-disciplinary and academic activities, and projects.

the history

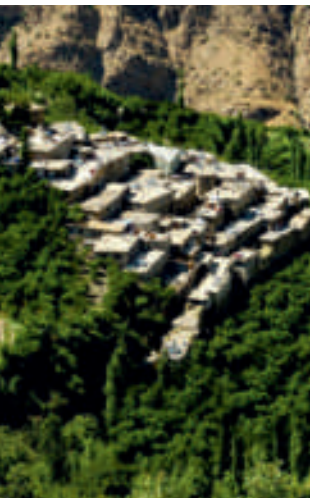

on the MESOPOTAMIA

The city's history dates back to ancient times, and it has a rich cultural heritage influenced by various civilizations, including the Hittites, Romans, and Byzantines.

One of Siirt's notable features is its traditional architecture and historical sites. The city is known for its ancient mosques, such as the Ulu Mosque, which reflect its Islamic heritage. Siirt is also renowned for its distinctive crafts, including handmade carpets and textiles.

Geographically, Siirt is situated in a region with a varied landscape, including mountains and plains. The area around Siirt is known for its natural beauty, including the Botan Valley, which offers opportunities for hiking and exploring. Botan Valley also contains remnants of historical settlements and structures. The valley's historical sites, combined with its scenic landscapes, make it a significant area for both cultural and natural exploration.

Siirt's cuisine is another highlight, featuring traditional Turkish dishes with local specialties. The region is particularly known for its delicious kebabs and local cheese. The cuisine of Siirt, a city in southeastern Turkey, is a vibrant reflection of its cultural and historical influences. Known for its rich and flavorful dishes, Siirt's food is a delightful blend of traditional Turkish flavors with unique regional specialties. Here are some notable foods from Siirt:

the history

on the MESOPOTAMIA

Overall, Siirt offers a unique blend of historical charm, cultural richness, and natural beauty, making it a fascinating place to visit or explore.

Traveling to Siirt, a city in southeastern Turkey, can be done via various modes of transportation depending on your starting point. Siirt Airport is the main gateway to the city. Turkish Airlines and AnadoluJet offer flights to Siirt from major Turkish cities such as Istanbul and Ankara. Flights from Istanbul are relatively frequent and take about 1.5 hours. The airport is about 1km away from our campus and 10 kilometers (6 miles) from the city center.

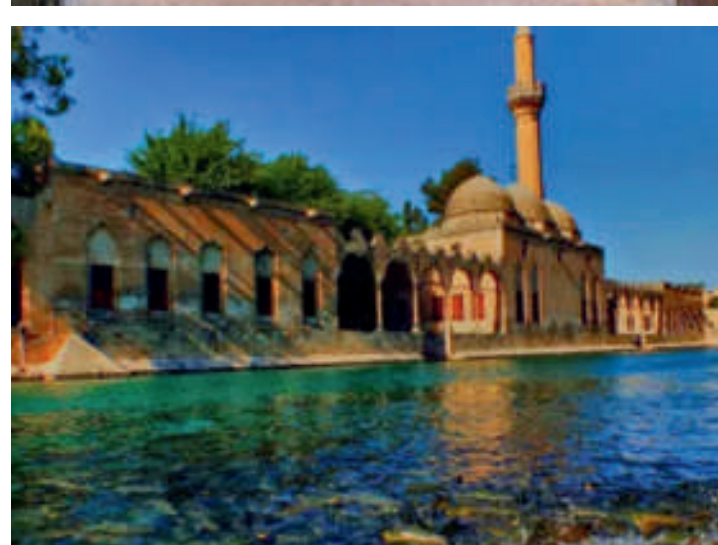

Siirt is well-connected by bus to many cities in Turkey. You can find intercity buses from Istanbul, Ankara, İzmir, and other major cities. The bus ride can be long, depending on your starting location, but it's a common and cost-effective option. Siirt has a direct train connection to major cities, so train travel is another convenient option.

the history

on the MESOPOTAMIA

The Southeastern Anatolia region is a treasure trove of historical sites and natural wonders, offering visitors a rich tapestry of experiences and insights into both ancient and contemporary cultures. Siirt is very close to Batman Hasankeyf an ancient town with historical ruins, including a castle, mosques, and old stone houses, Diyarbakır, known for its ancient city walls, which are among the longest and best-preserved in the world, Mardin a city with well-preserved stone architecture and historical buildings, including ancient churches, mosques, and monasteries (UNESCO Tentative Site) and Bitlis Tatvan which offers easy access to Lake Van, known for its deep blue waters and picturesque setting. The lake is a popular spot for nature enthusiasts and those seeking scenic beauty.

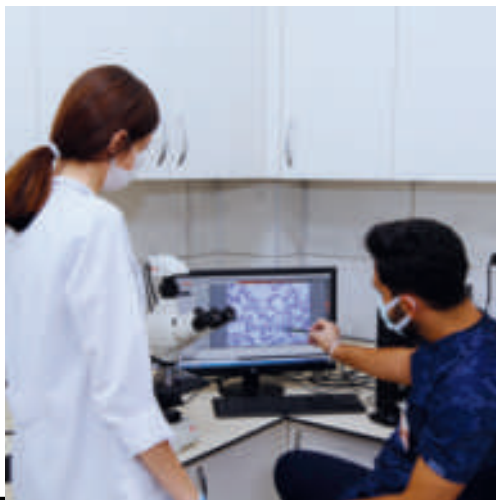

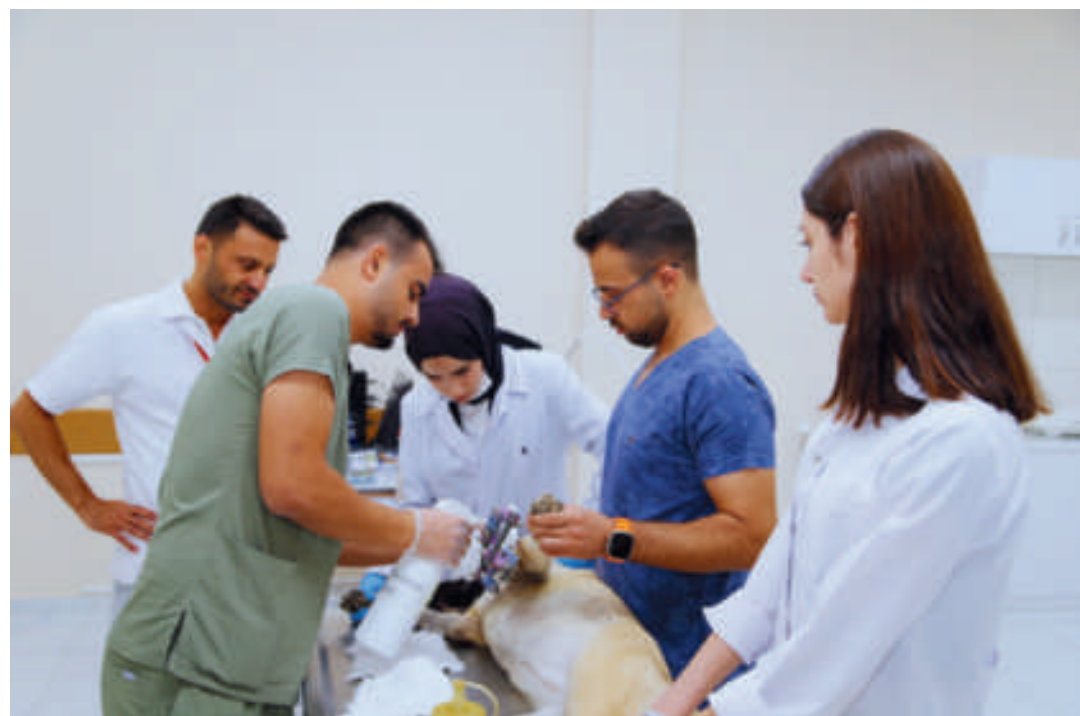

Siirt University

at a GLANCE

Academic Structure consists of 11 faculties, 4 Institutes and 3 Schools: It also has various institutes and vocational schools that offer a range of undergraduate and graduate programs. The university offers undergraduate degrees in fields such as engineering, economics, social sciences, and health sciences. Siirt University provides master's and doctoral programs in several disciplines, focusing on research and advanced studies. The university has established research centers that focus on various fields, including technology, social sciences, and health. It engages in collaborations with other universities and institutions for research and development projects. The university engages in outreach programs that aim to support regional development and foster collaboration with local businesses and institutions.

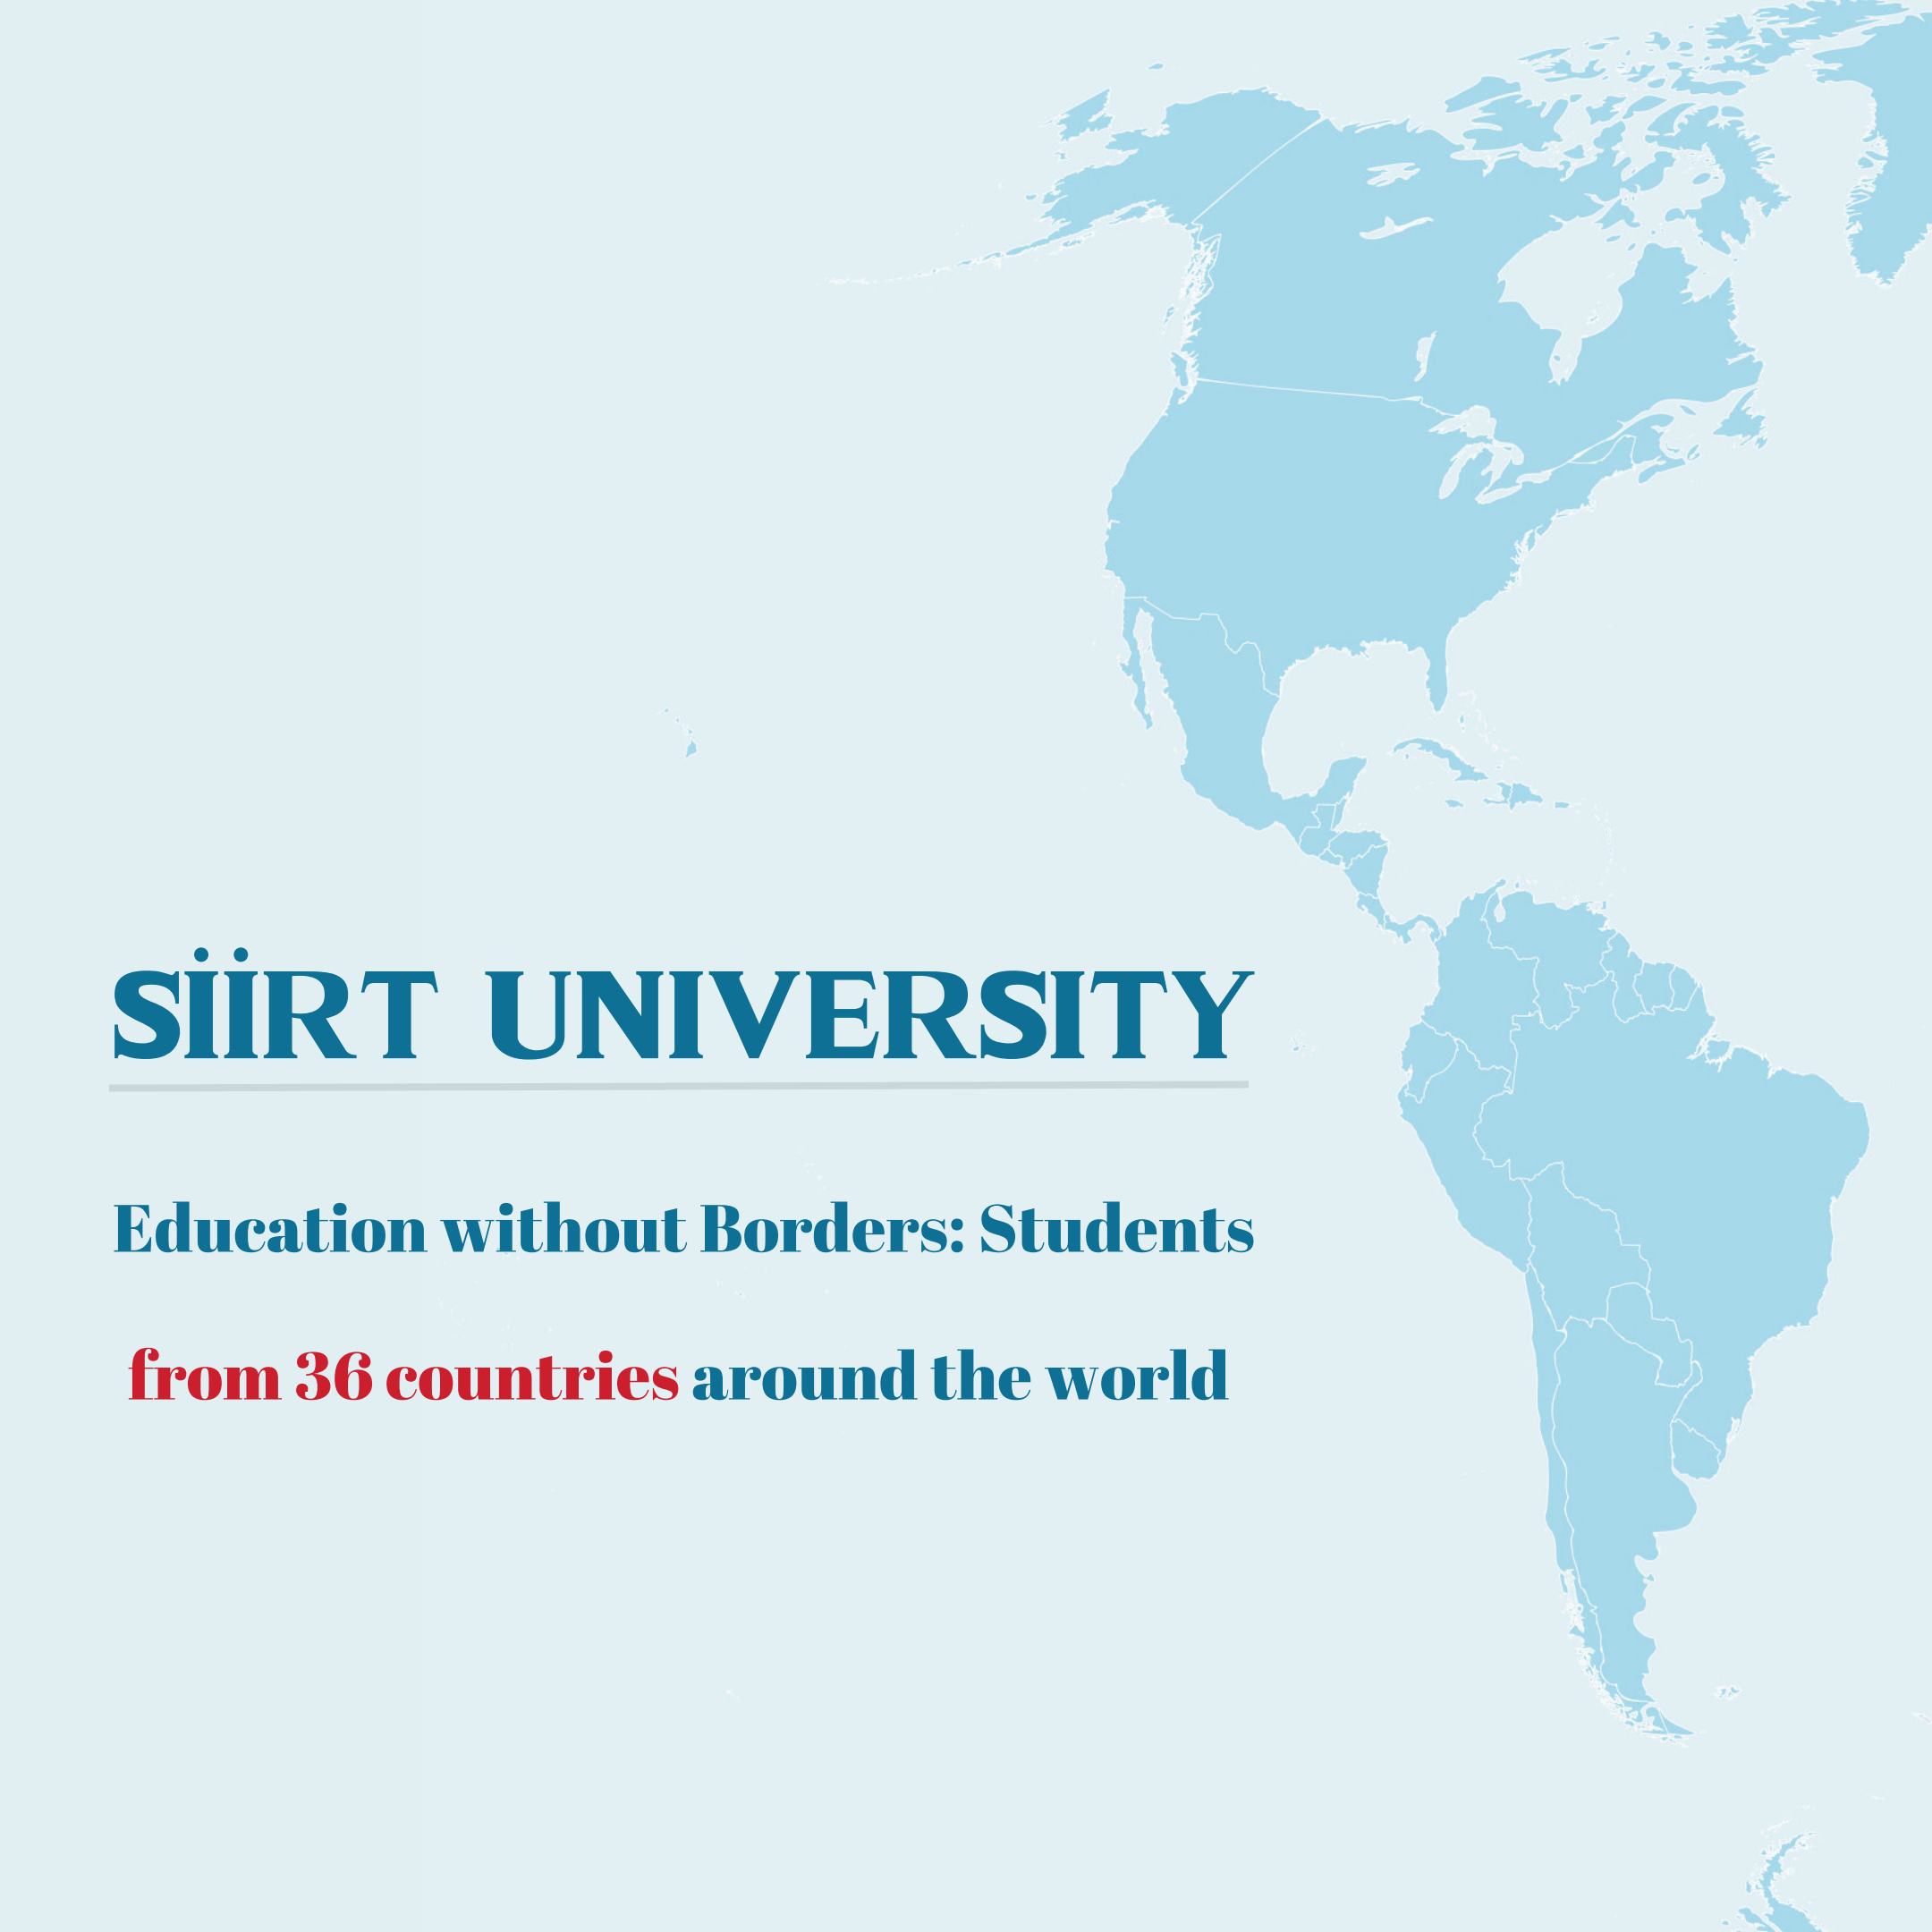

International Relations Office

Siirt University International Relations Coordinatorship conducts its activities as a directly linked unit to the Rectorate. The Coordinatorship is responsible for establishing and maintaining strong relations with universities, along with higher education institutions and various organizations in other countries in terms of scientific, academic, social and cultural fields in line with the University's strategic plan and to ensure that all programs and activities aimed at coordinating the University's international activities and within this implementation it is intended to support all units in the university.

It organizes all activities, carries out the necessary infrastructure work, and increases participation in programs in terms of quality and quantity besides evaluating, making applications, signing contracts with the European Union Education Programs (such as Erasmus+) and the sub-areas of these programs in the framework of the European Union Ministry of Education and Youth Programs Presidency (National Agency) or the European Commission on Erasmus Mobility or other project titles And regularly sends intermediate and final reports. Siirt University participates in various international exchange programs, allowing students and staff to engage with global academic communities. It has established partnerships with universities and institutions in other countries for collaborative projects and research.

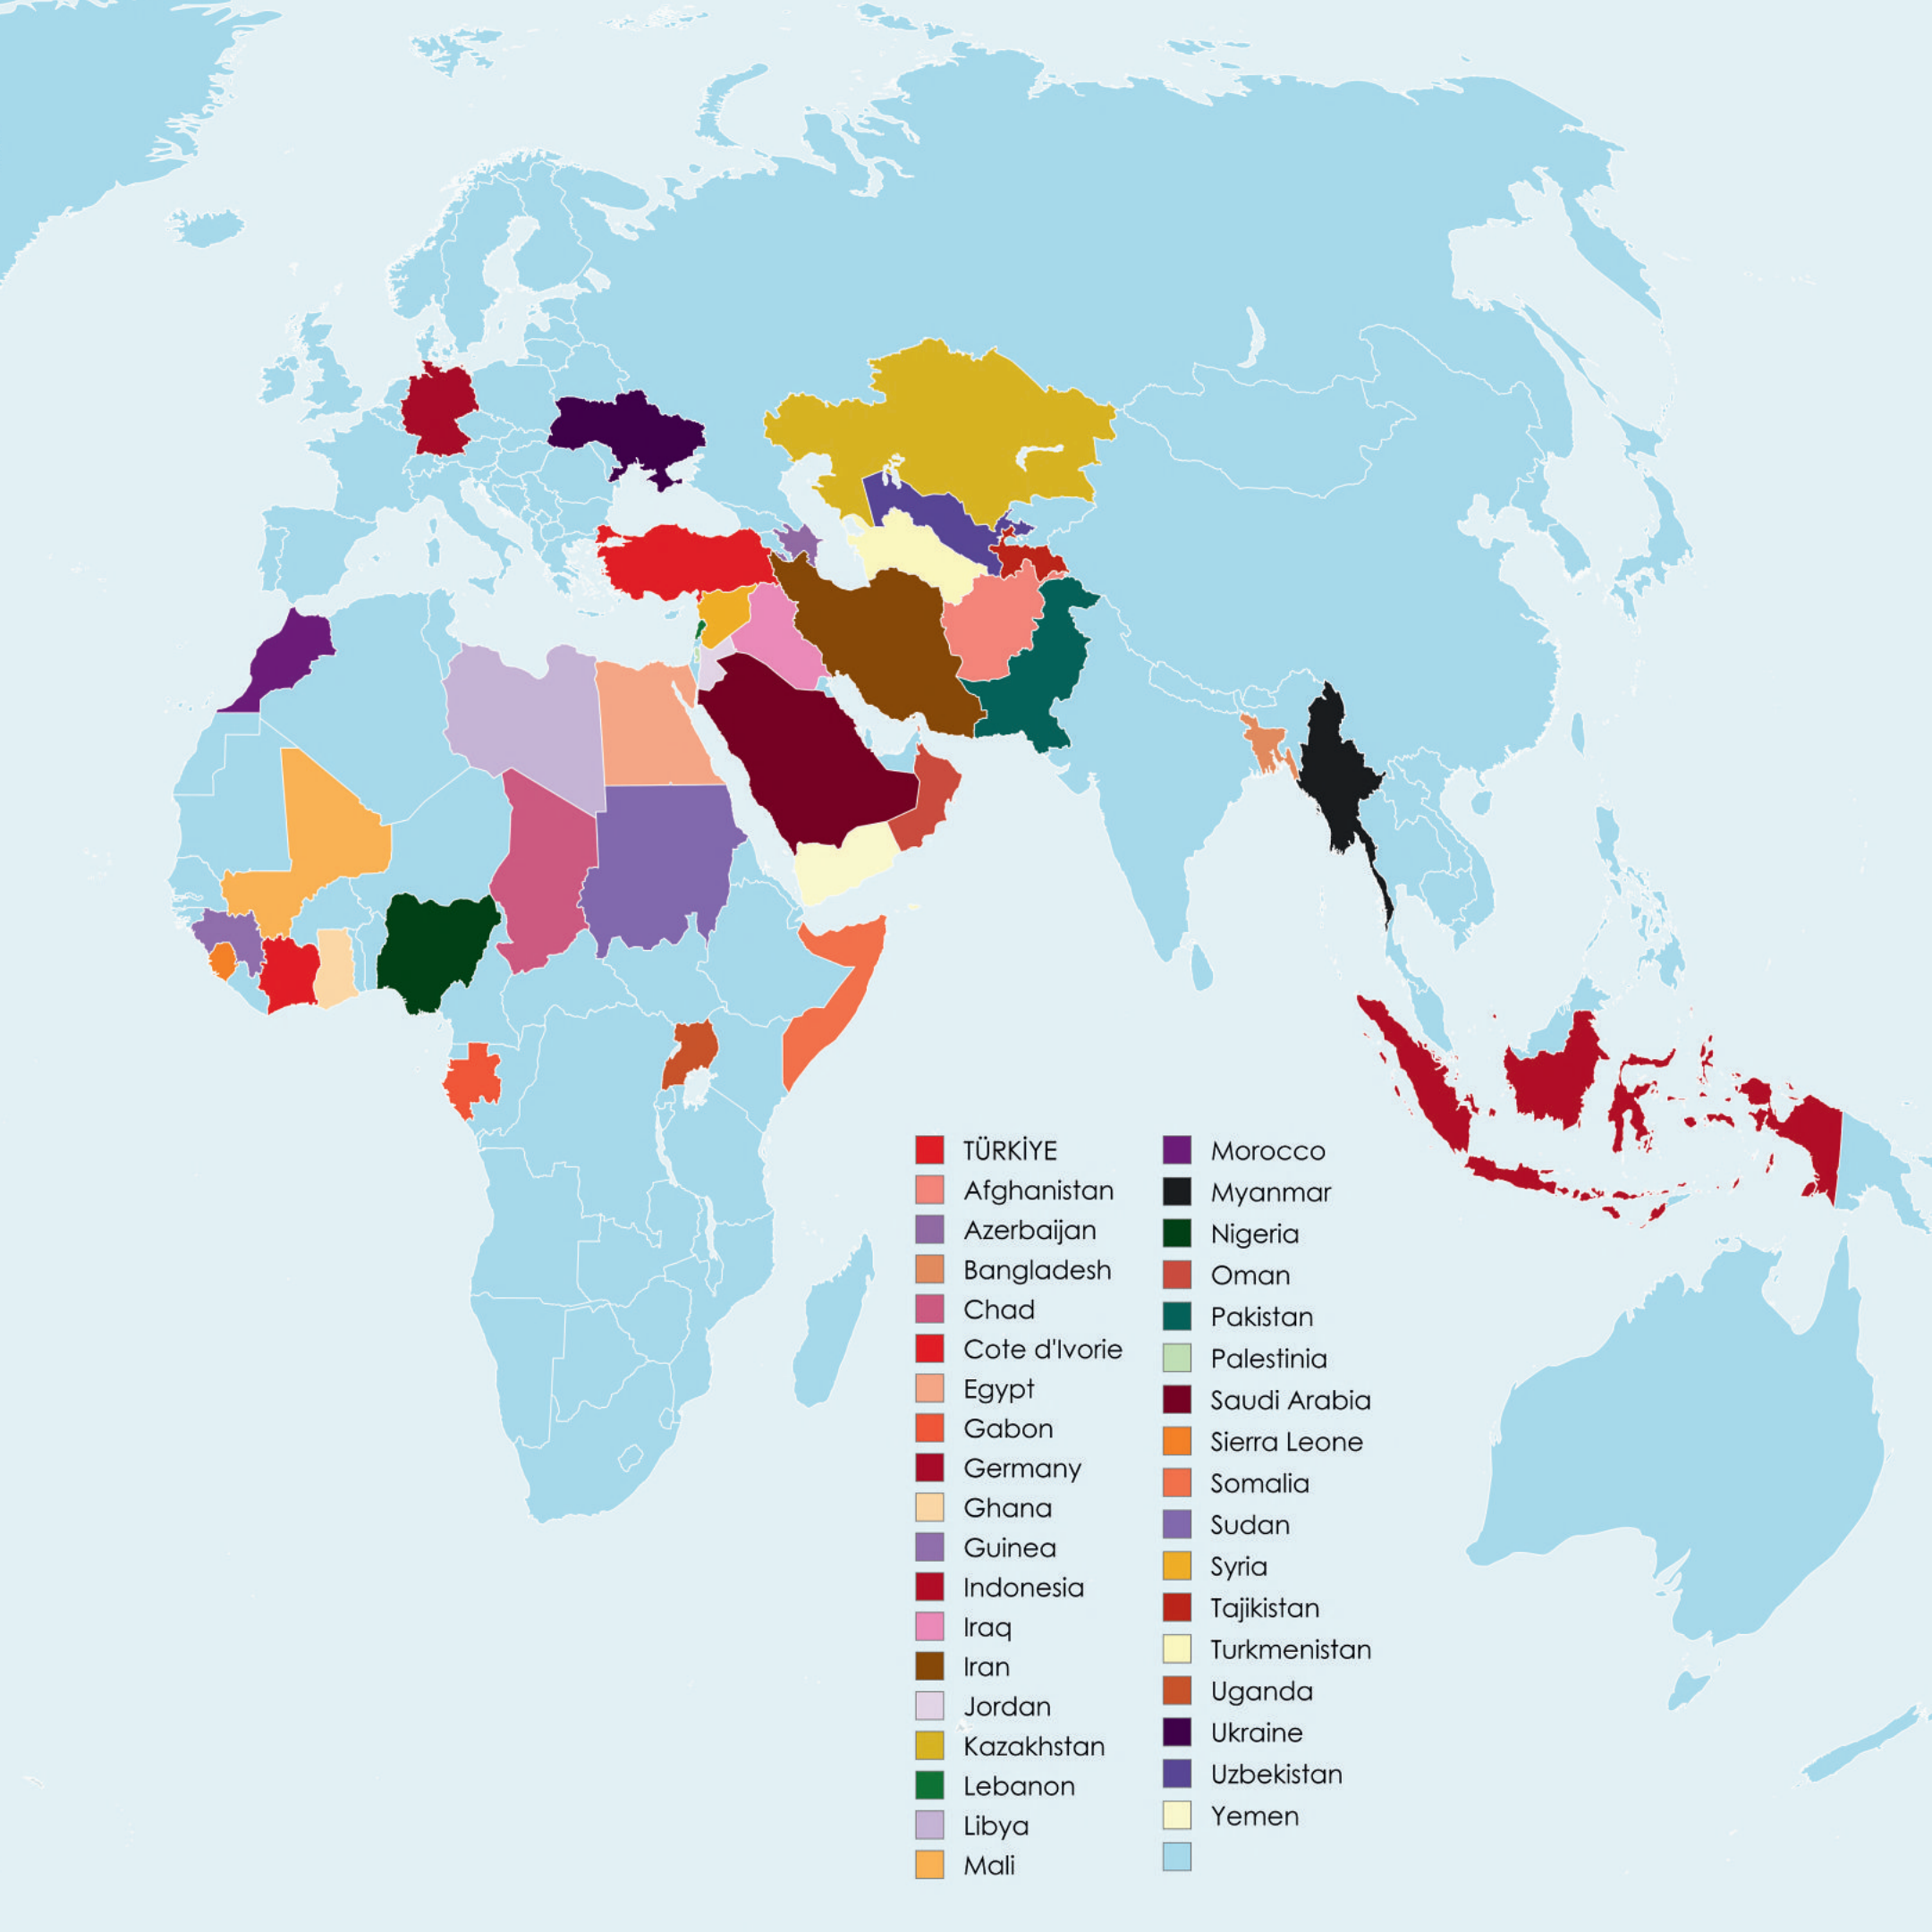

SIIRT UNIVERSITY

Education without Borders: Students

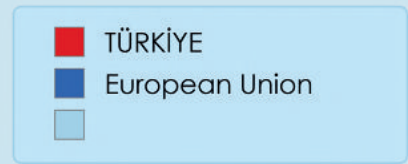

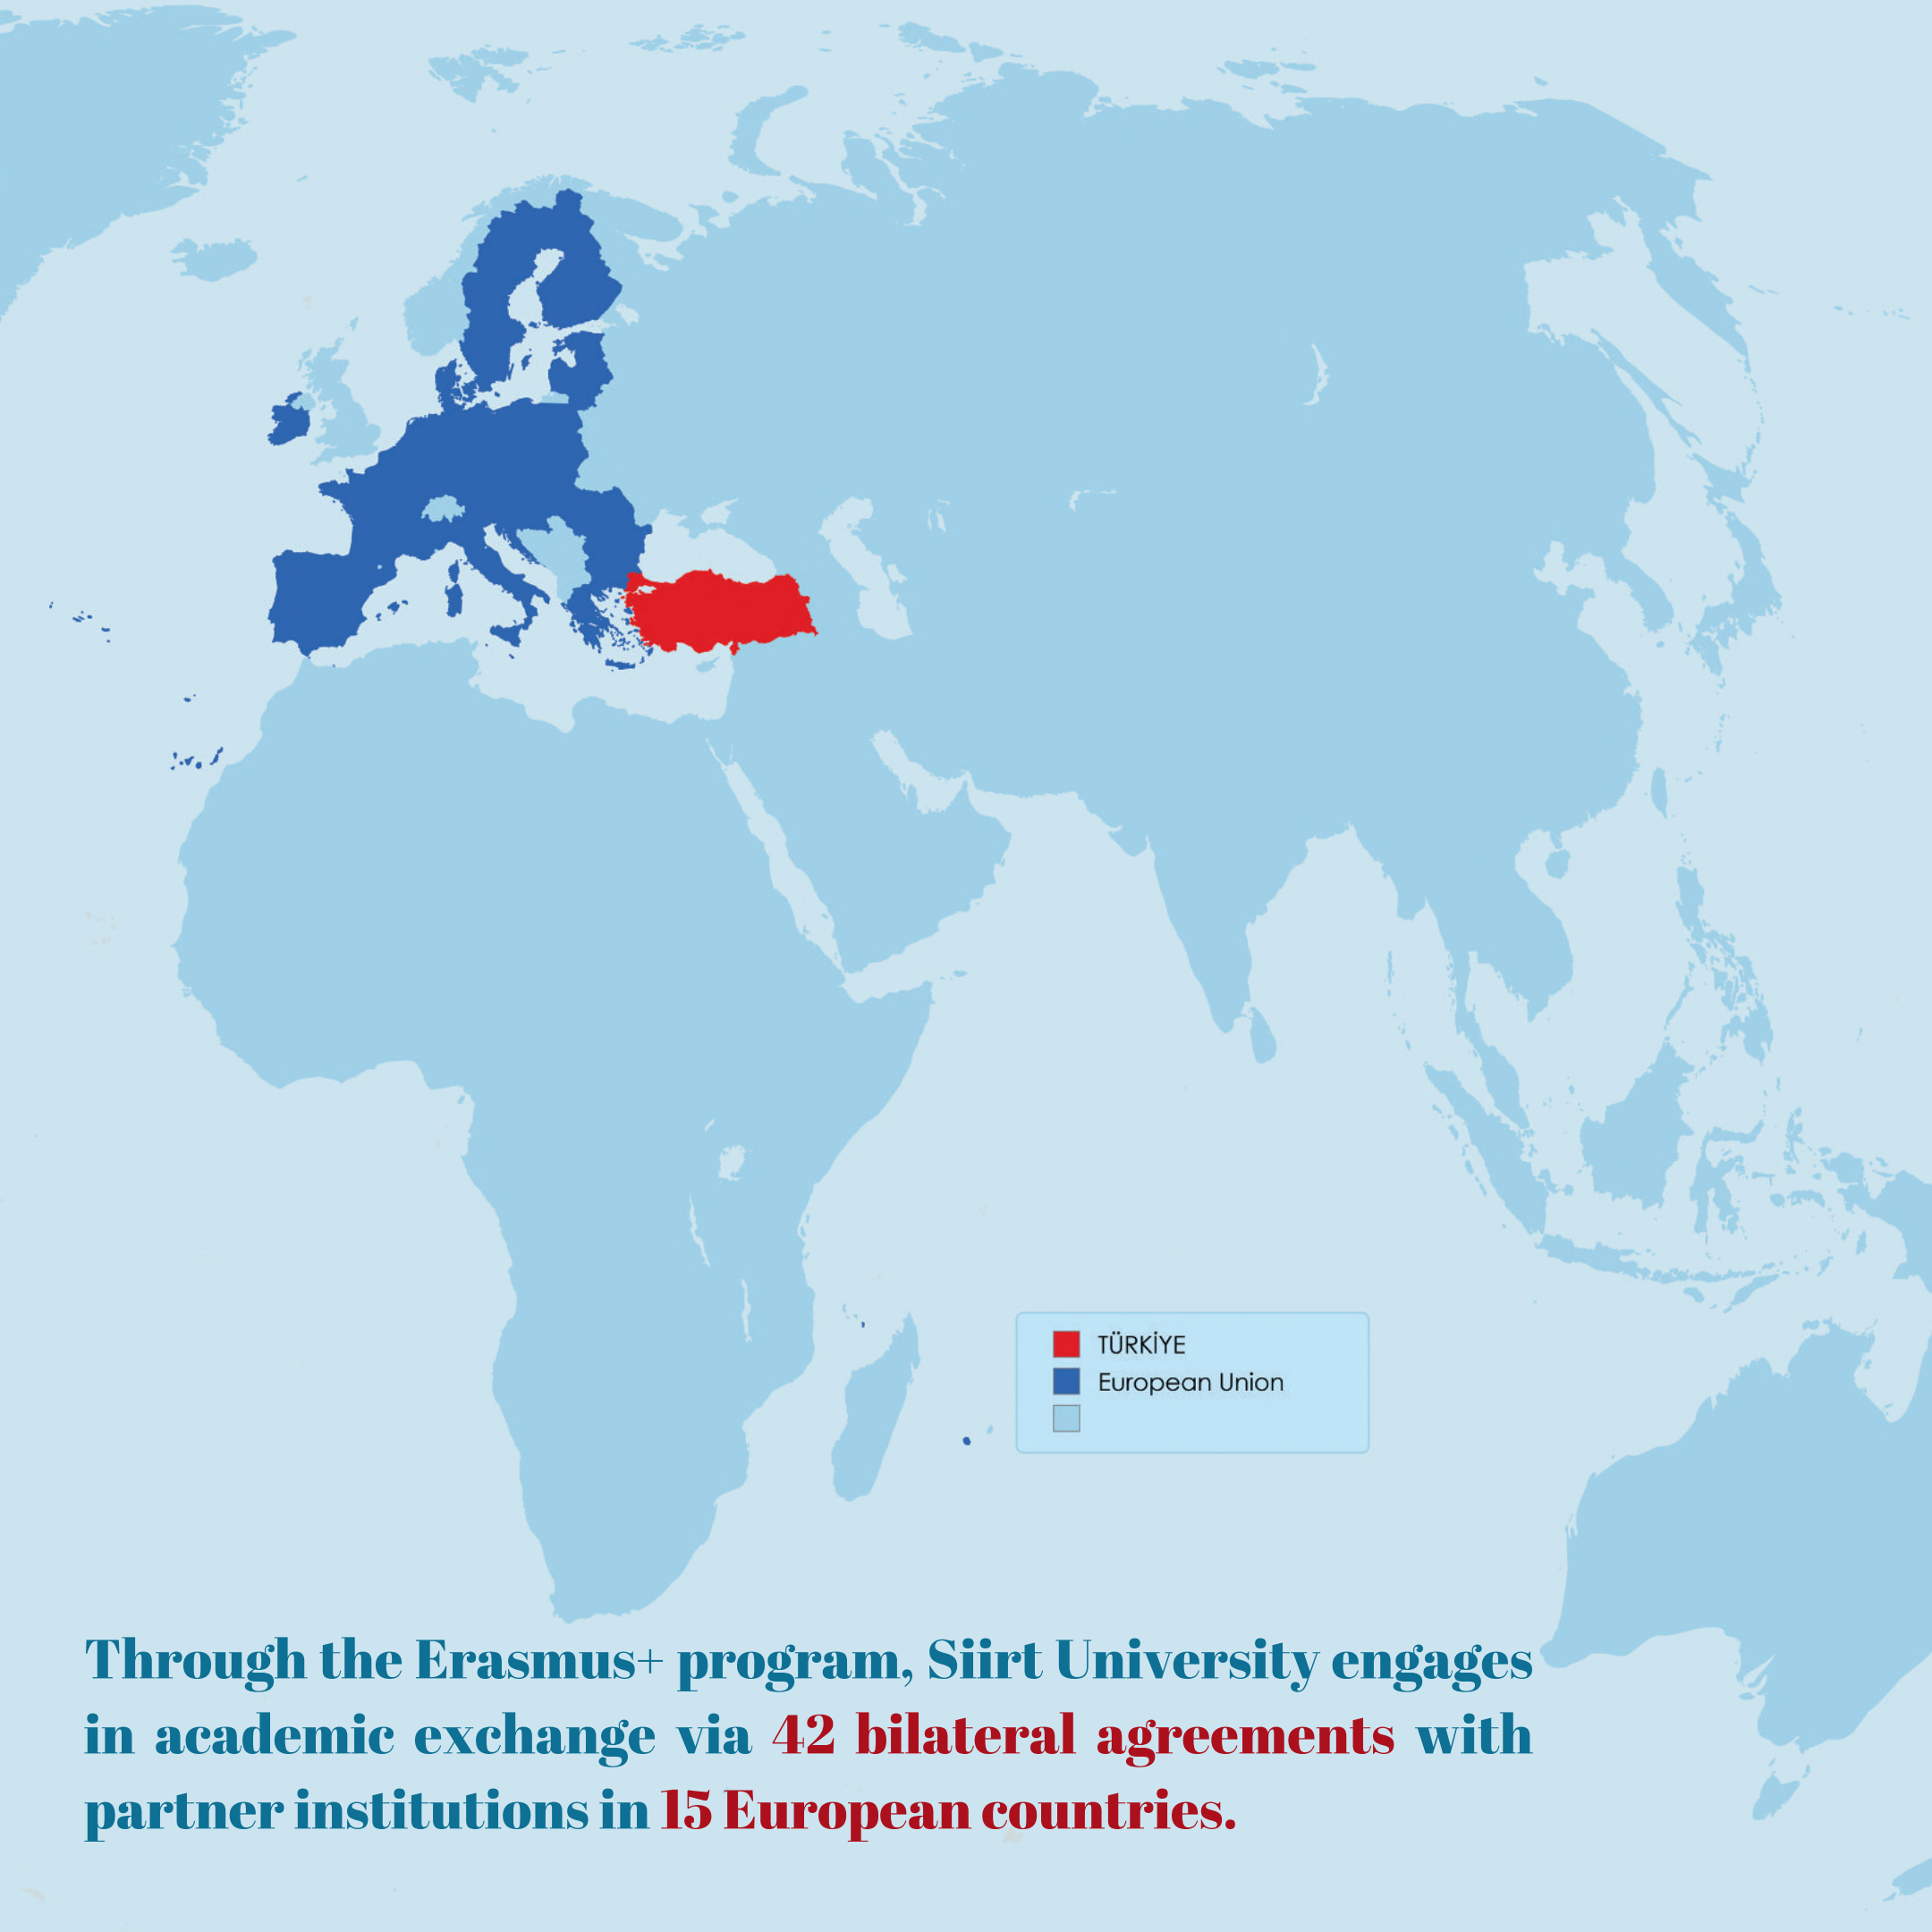

from 36 countries around the world

SIIRT UNIVERSITY

sends annually its students to European countries as a part of Erasmus exchange mobility programs.

Through the Erasmus+ program, Siirt University engages in academic exchange via **42 bilateral agreements** with partner institutions in **15 European countries**.

ACADEMIC & SOCIAL FACILITIES

31	Central Library
33	Research and Teaching Laboratories
35	Housing and Residence Services
37	Campus Health Services
39	Sport and Recreation Services
41	Student Activities

Central LIBRARY

Library boasts an extensive collection of volumes, including books, journals, digital resources, and special archives. Our holdings span a wide array of disciplines, ensuring that you have access to the latest research, historical documents, and scholarly works in your field of study. Our facilities include individual study spaces, collaborative workrooms, and comfortable reading areas designed to accommodate various learning preferences. We offer advanced technology resources such as computer labs, multimedia equipment, and digital databases to enhance your academic experience. The library is not just a place for quiet study; it's also a venue for academic engagement and community building. We regularly host workshops, lectures, and exhibitions that highlight new research, technological advancements, and cultural events.

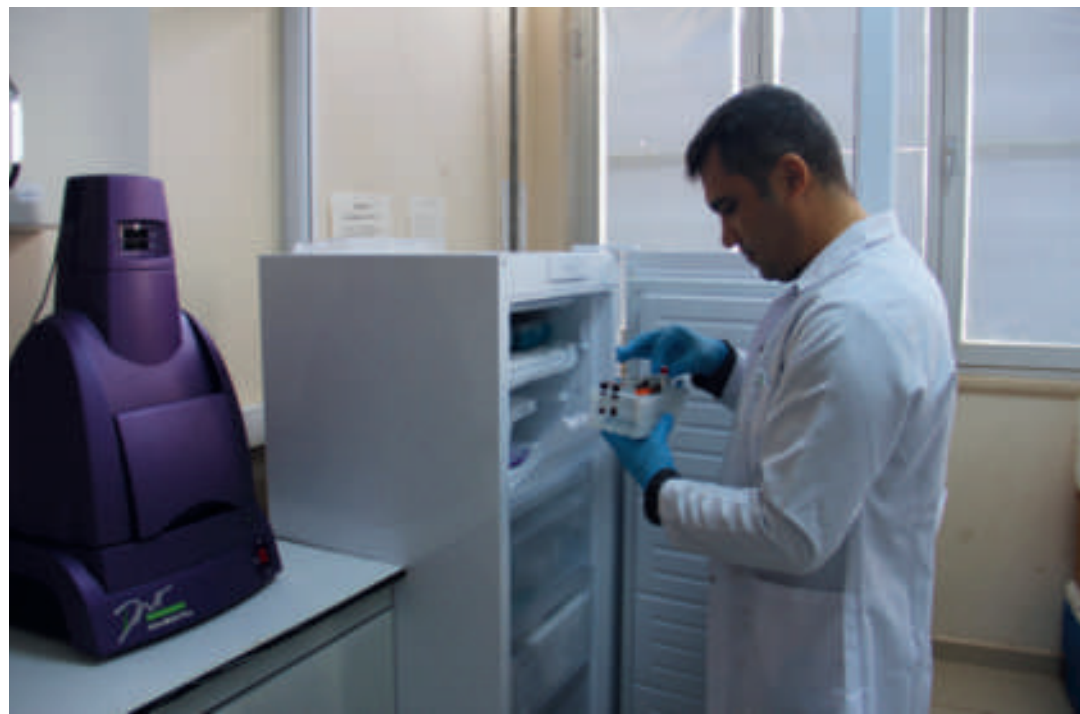

Research and Teaching LABS

Our laboratories are at the forefront of innovation and research, providing students and faculty with the tools and resources needed to advance knowledge and drive discovery. Our facilities are designed to support a wide range of scientific, technical, and creative endeavors, ensuring that you have access to cutting-edge technology and expertise. Our research labs are equipped with advanced instruments and technologies to support groundbreaking research across various fields. Our teaching labs offer hands-on learning experiences for students in science, engineering, and technology disciplines. We house specialized laboratories for specific disciplines, including: biological sciences lab, chemistry lab, physics lab, engineering lab and computer science lab. Our labs also include spaces for innovation and collaborative projects. These areas are designed to encourage interdisciplinary work, providing opportunities for students and researchers from different fields to come together and tackle complex problems.

Housing and Residence SERVICES

Siirt University provides on-campus and off-campus housing options for students. Comfortable and supportive living arrangements are crucial to a successful university experience. Our accommodation options are designed to provide a safe, inclusive, and conducive environment where students can thrive academically and socially.

Our university has a Girls' and Boys' dormitory in the Kezer campus under the Higher Education Credit and Dormitories Institution of the Ministry of Youth and Sports of the Republic of Turkey. There are also dormitories and apartments owned by private enterprises in our province. In our high schools located in the districts, there are student dormitories affiliated with the Health, Culture and Sports Department of our University. Our dormitory in Eruh Vocational School has a capacity of 150 students.

Campus Health FACILITIES

The university offers health services and facilities to support students' well-being. Our modern facility is equipped with the latest medical technology to provide effective and efficient care. Our dedicated team of healthcare professionals, including doctors, nurses, mental health counselors, and administrative staff, are here to offer compassionate and confidential support. Our university offers free health services to our students with 1 family physician, 2 general practitioners, 4 nurses, 1 psychologist and 1 dietician within the Medico-Health Unit.

Sport and Recreation FACILITES

We believe in the power of sports and physical activity to enhance your university experience. Our Sports Services are dedicated to promoting health, wellness, and a sense of community through a wide range of athletic programs, facilities, and events. For those looking to take their athletic pursuits to the next level, we offer competitive sports teams in various disciplines. Our teams are supported by experienced coaches and training facilities to help you excel. Our sports facilities are equipped with the latest equipment to ensure a top-notch experience. We serve our students with open tennis courts, basketball courts, open and closed football fields, indoor sports hall and fitness center in our Kezer Campus. Our students who want to join our university team can have the chance to represent our university in tournaments by participating in the team selections opened every new academic year.

Student ACTIVITIES

The university supports various student activities and clubs, encouraging students to participate in cultural, social, and sports events. We believe that student life extends beyond the classroom. We are dedicated to enriching your university experience through a diverse range of extracurricular opportunities, clubs, and events designed to foster personal growth, community involvement, and lasting friendships.

Vision: As a faculty that works to develop solutions to the educational problems of our province, region and country, who is open to innovation, development and change and constantly improves itself, our aim is to raise individuals who are critical, questioning and scientifically minded, respectful of national, spiritual and universal values, sensitive to social problems, focused on the future without forgetting the past, open to innovation, who see knowledge as a lost value and attach importance to acquiring knowledge.

Mission: Our mission is to train competent teacher candidates who know the ways to access information, produce and use knowledge, possess a spirit of research, are willing to engage in dialogue, are able to adapt to changing circumstances in their profession, and have obtained teaching credentials.

We value social life and student organizations. With the active involvement of our students, we arrange panels, conferences, student symposiums, exhibitions, seminars, shows, contests, social, athletic, artistic, and educational events. We have computer, math and science lab, music and visual arts workshop, drama, brain games and seminar halls, guidance and psychological counseling practice class. We have 82 full time faculty member.

Vision: Our vision is to be one of the leading and popular Agricultural Faculties of the region with our scientific and academic studies that approach Agricultural Sciences with an innovative perspective, comply with the requirements of the age, take into account the needs of the region, respect universal values and remain loyal to traditional values.

Mission: Our mission is to train Agricultural Engineers who are creative, effective and successful researchers in their field, to improve traditional agriculture and animal husbandry with scientific methods and strengthen the regional economy.

Faculties of Agriculture are very important for the agricultural development of our country and play an important role in the development of both the country's economy and rural development by conducting the necessary scientific research to maximize the productivity obtained from agricultural areas. In order for the research and studies to be carried out in this direction to be carried out at the highest level, Faculty of Agriculture has started its activities with its strong academic staff. Among the important agricultural activities of our Siirt province, pistachio cultivation, pomegranate cultivation, viticulture, honey production and mohair production used as raw material in handicrafts are very important for the regional economy. It is planned to maximize product yield in the region through scientific research and breeding studies on these products. We have 75 full time faculty member.
